

# D.A.R.T. SYSTEM

## COMBINING TIME-TESTED FIRST AID WITH ADVANCED TRAINING TECHNOLOGY

The ITTS D.A.R.T. System introduces new teaching software that replaces a defibrillator and ECG Rhythm Simulator. With our program at your fingertips, you can practice capnography, defibrillation, 12 LEAD, synchronized cardioversion, X-Rays, transcutaneous pacing, and much more right from your computer at a fraction of the cost of real defibrillator equipment. You can even use your existing CPR manikins and equipment.

### PRODUCT DESCRIPTION

Take your D.A.R.T. ECG Simulator to the next level of realism. Our Android tablet slides into the front cover of the D.A.R.T. Bag giving your D.A.R.T. sim the look & feel of a real defibrillator/monitor. The D.A.R.T. Bag includes everything you need to run a dynamic ACLS/PALS training simulation.

### PACKAGE INCLUDES:

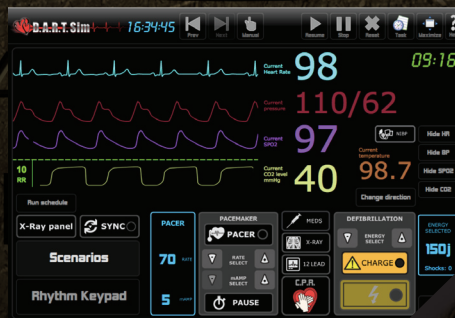

- Pediatric & Adult Defib Pads.
- Adult, Child & Infant Blood pressure Cuffs.
- Child & Infant SPO2 Probe Sensors.
- 3 Lead ECG Cable.
- EtCO2 Airway Sensor.
- Bag is also compatible with 1st through 4th Gen iPads.

### Additional information:

- Weight 4 lbs.
- Dimensions: 14" x 9" x 8"
- Bag Color Blue, Red, Yellow

### Optional Accessories:

- Wireless Mini Keyboard/Mouse Remote
- 12 Lead ECG Cable
