

ITTS TRAINING & SERVICES

ITTS specializes in the design and development of effective tactical training simulation equipment for military, law enforcement, and medical organizations. We create realistic full mission profile tactical training scenarios that push a team's tactics, techniques and procedures to the limit, revealing strengths and weaknesses.

Our primary consideration is to create products with such attention to detail that they add unparalleled realism in creating care under fire, direct threat, active shooters and stressful training environment.

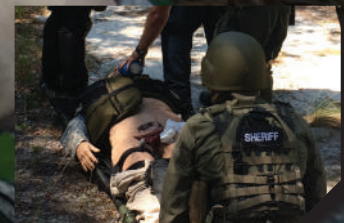

As an extension of our commitment to enhancing the training environment, ITTS also offers seasoned veteran led classroom instruction, trauma lanes and field training that will allow you to take full advantage of ITTS products, while reinforcing tactical scenario techniques.
