

# PATROL OFFICER DOWN™ SURVIVAL COURSES

## WHEN THE LIFE THEY PUT ON THE LINE IS THE ONE IN YOUR HANDS

The ITTS Patrol Officer Down™ (POD™) Survival Courses addresses the most common preventable causes of death for law enforcement officers specific to their often hostile, close and deadly environment. With content provided by CTOMS, the POD™ Survival Course gives the graduate the knowledge and confidence to use the skills in the larger tactical situation to save your own life or the life of your partner when the violence is turned against you.

The goal of the POD™ program is to give you and your team an advantage, positioning you for success using critical thinking and establishing appropriately conditioned responses. These techniques will form a foundation of pattern recognition, advancing your journey toward mastery through problem based and experiential learning.

### E-LEARNING POD™ SURVIVAL COURSE

Educate your entire force in the Patrol Officer Down™ Survival Course with online e-learning. E-Learning POD™ Survival Courses transfer the control of your staff training to you.

You can train your entire staff according to your training and work schedules. E-Learning reduces the need for travel time. Officers can train anywhere they have access to a computer and internet connection—training and working at their own pace. You can be confident that your staff is receiving the same content regardless of their location.

Whether you have a staff of ten or ten thousand, the e-Learning POD™ Survival Course reduces the cost per head versus traditional training methods.
